PROFESSIONAL SUMMARY

Bachelor's degree graduate in Software Development from BYU–Idaho with a passion for building digital ecosystems that connect communities. Experienced in full-stack web development using React, Next.js, TypeScript, Node.js, and MongoDB. Skilled in creating role-based dashboards, REST APIs, and responsive applications across agriculture, education, tourism, and community engagement sectors. Committed to writing clean, maintainable code and fostering inclusive developer communities in Uganda and beyond.

TECHNICAL SKILLS

Language s	Frontend	Backend	Database s	Cloud & DevOps	Tools
JavaScript (Expert)	React (Expert)	Node.js (Advanced)	MongoDB (Advanced)	AWS (Intermediate)	Git (Expert)
TypeScript (Advanced)	Next.js (Advanced)	Express.js (Advanced)	PostgreSQL (Advanced)	Docker (Intermediate)	GitHub (Expert)
Python (Advanced)	HTML5 (Expert)	Python (Advanced)	MySQL (Advanced)	Vercel (Advanced)	VS Code (Expert)

Language s	Frontend	Backend	Database s	Cloud & DevOps	Tools
SQL (Advanced)	CSS3 (Expert)	C#/.NET (Advanced)	Redis (Intermediate)	Kubernetes (Intermediate)	Postman (Advanced)
C# (Advanced)	Tailwind CSS (Advanced)	REST APIs (Expert)	ElasticSearch (Intermediate)	Jenkins (Intermediate)	Chrome DevTools (Expert)
Java (Intermediate)	Angular (Intermediate)	JWT Auth (Advanced)	Database Design (Advanced)		Jest (Advanced)
PHP (Intermediate)	Vue.js (Intermediate)	MVC Architecture (Advanced)	Query Optimization (Advanced)		PyTest (Advanced)

PROFESSIONAL EXPERIENCE

Software Developer

Freedom City Tech Center | 2023 – Present

- Designed and developed full-stack web applications for technology education center management
- Built role-based dashboards for students, administrators, and instructors with granular access control
- Developed secure REST APIs with JWT authentication and role-based authorization
- Optimized database performance through query optimization and proper indexing strategies

- Mentored junior developers and led code reviews to maintain code quality standards
- Implemented responsive interfaces for desktop and mobile using Tailwind CSS
- Integrated analytics and reporting features for tracking center performance metrics

Developer Community Leader

Ugandan Tech Community | 2023 – Present

- Built and led inclusive developer communities focused on fostering innovation in Uganda
- Organized technical workshops and training sessions for aspiring developers
- Advocated for fairness in teamwork and inclusive communication practices
- Mentored students and junior developers in software engineering best practices
- Facilitated open source contribution opportunities for community members

FEATURED PROJECTS

Avora Pig Farming Platform

Full Stack Developer | 2025

Technologies: Next.js • React • Tailwind CSS • Node.js • Express • MongoDB

Highlights:

- Developed a comprehensive farm management system for pig farming operations
- Built farm monitoring dashboard with real-time production tracking
- Implemented herd management features including breeding, health, and growth tracking
- Designed responsive interface optimized for mobile and desktop use
- Integrated production analytics for informed decision-making

 [Live Demo](#) |  [GitHub](#)

Freedom City Tech Center Management System

Lead Full Stack Developer | 2024

Technologies: Next.js • TypeScript • React • Tailwind CSS • Node.js • MongoDB • PostgreSQL

Highlights:

- Developed a multi-tenant management system for technology education centers
- Built student, administrator, and instructor dashboards with role-specific views
- Implemented secure JWT authentication and role-based authorization
- Designed responsive interfaces for desktop, tablet, and mobile devices
- Integrated analytics and reporting features for performance tracking
- Optimized database queries for improved application performance

 [Live Demo](#) |  [GitHub](#)

Liahona Tourism Booking Platform

Full Stack Developer | 2024

Technologies: Next.js • React • Tailwind CSS • Node.js • Express • MongoDB

Highlights:

- Designed and built a tourism booking website for Liahona Company
- Implemented tour browsing, booking system, and payment integration
- Created user dashboard for managing bookings and preferences
- Built admin panel for tour and booking management
- Developed responsive interface for optimal user experience

 [Live Demo](#) |  [GitHub](#)

Community Engagement Platform

Full Stack Developer | 2024

Technologies: Next.js • React • Tailwind CSS • Node.js • Express • MongoDB

Highlights:

- Built a community platform connecting people through shared interests

- Implemented user profiles with customizable settings
- Developed discussion forums with threaded conversations
- Created events management system with RSVP functionality
- Built real-time messaging and group features
- Designed responsive interface for seamless user experience

EDUCATION

Bachelor of Science in Software Development

Brigham Young University–Idaho | 2022 – 2025

Certificates Earned:

- **Web & Computer Programming Certificate** — Python, C#, Web Fundamentals, Data Structures
- **Web Development Certificate** — Full-stack development, Databases, REST APIs, MEAN Stack
- **Software Development Certificate** — Advanced Engineering, Testing, .NET, Agile Methodologies

Capstone Project (CSE 499): Applied full Software Development Life Cycle from planning through deployment

LEADERSHIP & COMMUNITY

- **Developer Community Leader** — Building inclusive developer communities and advocating for fairness in tech
- **Technical Mentor** — Mentoring aspiring developers and students in software engineering practices
- **Open Source Contributor** — Active participation in open source projects and community contributions
- **Tech Workshop Facilitator** — Organized training sessions on web development and programming fundamentals
- **Community Advocate** — Promoting inclusive communication and teamwork in developer communities

CERTIFICATIONS

- Web & Computer Programming Certificate (BYU–Idaho)
- Web Development Certificate (BYU–Idaho)
- Software Development Certificate (BYU–Idaho)
